

Insulated Human Remains Transfer Container

NSN Number: 9930-01-581-5643 · Skydyne Part Number: 75232-006

The IHRTC is a globally-recognized updated version of the original Vietnam era container used to transfer human remains. This product is modified to include an inner layer of insulation and other features which allow better regulation of the temperature within the container. The IHRTC is equipped with replaceable hardware which allows users to perform easy repair in the field if and when needed.

Product Specifications

- Dimensions: 88.29"L x 28.29"W x 17.6"H
